Independent audits provide essential accountability and transparency for Pool operations. This information is valuable to management, the governing body and public stakeholders when assessing the government's stewardship of public resources.

## AUDIT SUMMARY

### Results in brief

In the areas we audited, Pool operations complied with applicable requirements and provided adequate safeguarding of public resources. The Pool also complied with state laws and regulations and its own policies and procedures in the areas we examined.

### About the audit

This report contains the results of our independent accountability audit of the Washington Counties Risk Pool from October 1, 2013 through September 30, 2014.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the Pool's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. The following areas were examined during this audit period:

- Open Public Meetings Act
- General revenues
- General expenditures
- Solvency
- Actuary report review
- Credit cards
- Payroll
- Disbursements
- Receipting
